

Your Information Pack

You will find below the content of your information pack, it gathers all information you will need to buy the right tire for your vehicle.

Here is the information from michelin.co.za on your tyre search for :

Your selected tyre

MICHELIN

PILOT SPORT CUP 2

Passenger Car/Minivan

Made for the road, designed for the circuit. Make the most of your sports car with the reference tyre in its segment !

Latest Generation

Race design tyre

High Speed Confidence

Key benefits

Delivering a tyre that covers all your needs.

Tyres have their own personality: they need to express certain characteristics more passionately. With MICHELIN Total Performance, you get all characteristics on top, without any compromise. All our tyres are made to cover all your need, thanks to MICHELIN Total Performance.

Faster than the fastest road tyre¹ on track

Faster on dry track: 1.8 seconds per lap
Faster on wet track: 1.2 seconds per lap
Faster in extremely wet cornering: +7 km/h

Better long lasting tread on track²

50% more track laps

High Speed Confidence³

Partner of lap time speed braking records with prestigious car manufacturers like Porsche and Renault Sport.

Keep in mind

You will find below some helpful questions to ask your dealer :

- If the tyre you've selected is not immediately available at your dealer, you can always ask them to order it. It may be available in just 1 – 2 days.
- Remember that a good price is not always a good value : a tyre that lasts longer, helps you save on fuel, and keeps you safe in every condition is a better value in the long run.

The sizes shown are average design values for tyres measured on specified measuring rim widths. Some tyres may vary from this value by +/-3% of the section height (affecting overall diameter), and +/-4% of the section width. Section width varies approximately 0.2" (5mm) for every 0.5" change in rim width. Tread patterns are often tuned to accommodate different tyre widths. Tyres for a particular dimension of a given tyre line may vary in appearance from the tyre shown in the photograph. **WARNING:** Serious or fatal injury may result from tyre failure due to underinflation or overloading. To ensure correct air pressure and vehicle load, refer to vehicle owner's manual or tyre information placard on the vehicle. Serious injury or death may result from explosion of tyre/rim assembly due to improper mounting. Only tyre professionals should mount tyres and they should never inflate beyond 2.8 bar to seat the beads. Before mixing types of tyres in any configuration on any vehicle, be sure to check the vehicle owner's manual for its recommendations. **DANGER:** Never mount a 16" diameter tire on a 16.5" rim. **DANGER:** Never mount a 17" diameter tire on a 17.5" rim. Inflation pressure increase must not exceed the maximum pressure branded on the tyre sidewall. When a customer requests a replacement tyre with a lower speed rating than the original equipment tyre, you must clearly communicate to him or her that the handling of the vehicle may be different, and that its maximum speed capability is limited to that of the lowest speed-rated tyre on the vehicle. Exceeding the lawful speed limit is neither recommended nor endorsed.

1. Based on internal max handling testing at the Jerez Circuit with a Porsche 997 GT3 (235/35ZR19 F & 305/30ZR19 R) compared to the Pilot® Sport Cup+.
2. Based on internal circuit wear testing at the Jerez Circuit with a Porsche 997 GT3 (235/35ZR19 F & 305/30ZR19 R) and Renault Megane III RS (235/35ZR19) compared to the Pilot® Sport Cup+.
3. Fastest lap time record sets up with Porsche 918 Spyder in September 2013 at Nürburgring - 6.57 minutes Fastest lap time record for or a front-wheel drive car model sets up with Renault Megane R.S. 275 Trophy-R in June 2014 at Nürburgring - 7.54 minutes
